

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I will not pay for everyone in the world to use a telephone. I am responsible for MYSELF. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable. My father is ill and if I should need to summon the ambulance or his doctor how in the sam hill do you suppose I am going to do this if the telephone and cell phone bills get out of control? Send smoke signals?

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair! Why do I have to pay for people who just have to reach out and touch someone 24/7? I AM RESPONSIBLE FOR WHAT I DO!!! STOP MAKE EVERYONE RESPONSIBLE FOR EVERYONE ELSE!! STOP THE PC NONESSENSE!!!!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses and people who have to be on the phone all the time can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely, Dianne Casey P. O. Box 60 Benton City, WA 99320

Sincerely,

MISS DIANNE CASEY
